## God Is: Meditations on the Attributes of God

*God is… Patient*

2 Peter 3:1-10

It is not about God being able to wait for something for a certain amount of time, but it is about how He responds to our sin with mercy and kindness. In His patience, we see the goodness and beauty of the heart of God for the world that stands against His will. A heart that longs to show this world unending mercy and grace.

1. God's endurance in patience.

2. God's heart in patience.

3. Our response to God's patience.
