Galatians: Faith Alone in Christ Alone

True Gospel Freedom

Galatians 4:8-20

The religious and the irreligious may live vastly different lives on the surface. But dig deep enough and you'll discover a common bedrock of legalism. Which explains Paul's concern that Gentile Galatians are on the verge of turning back to their former idolatry – by being more devoted to God's Law! Today's text draws a distinction between mere human religion and true gospel freedom.

1. Exposing within you a bedrock of legalism

2. Entreating you to love as those truly free in Christ
